Commissioner:

In response to the written opinion dated October 13, 1999, please amend the above-identified application as follows:

Please amend the claims as follows:

1. (Amended) A television system comprising:
a receiver for recovering a television signal being currently broadcast;
a display monitor for displaying the recovered television signal;
means for displaying on the monitor a television picture from [simultaneously with] the recovered television signal [an] simultaneously with both an informational message and an advertising message.
2. (Amended) The television system of claim 1, in which the informational and advertising messages are displayed in pop-up areas that cover at least a portion of the television
